

At Willow Lake Dream Big

At Willow Lake, we *Dream Big* for our campers! We turn these dreams into actions that help our campers grow, discover and achieve their full potential. Our safe and supportive community offers a phenomenal setting to teach our campers life skills that will contribute to success throughout their school year and beyond.

Willow Lake promotes values such as sharing, patience, teamwork and friendship. Campers develop respect for others as well as confidence in themselves from being part of our spirited environment where making friends and being a friend is encouraged daily.

Our staff champions our *Dream Big* philosophy and our low camper to staff ratio supports constant interaction between staff and campers. This intentionally creates an opportunity for campers to discover their strengths, interests and hobbies that will last them a lifetime.

Each week culminates with an all camp gathering where campers and staff share positive experiences from the week. Campers feel empowered, given the chance to acknowledge the success of their groupmates and friends in front of the entire camp community.
